

12/5/2011

We have been a valued customer of S K Oil Sales for several years. We began by purchasing box oil for some time and based on our volume of purchases, S K Oil Sales recommended that we consider a Bulk Oil system.

We had the system installed several years ago and the performance and service has been outstanding.

S K Oil Sales continually looks for ways to help us improve our safety, fried food quality, and overall oil management within our restaurant.

SK introduced us to the Zeco Pro 3 Battery Operated Oil Filtration System. Today, our staff uses the Zeco Pro 3 on a daily basis and our fryers are cleaner than ever and our oil is extremely clean from the double onboard filtration system of the Zeco Pro 3.

We are very pleased at how well our oil maintains a very balanced quality along with exceptional oil life the entire week.

Additionally, all our fried foods including our chips are clean and crisp from batch to batch.

If you are looking for a total oil management solution, we would highly recommend S K Oil Sales.

Regards,

Tony Garcia
